Legend: Wildfire Risk

Critical → Extreme

NWSAmarillo

weather.gov/ama

Critical Fire Weather conditions will once again be in play today. Hot, dry, breezy conditions will continue today, and are expected again tomorrow across the entire Panhandles. Please continue to practice proper fire safety to avoid new fires to spark.

Sunny, Hot, and Breezy Today

Record-breaking high temperatures possible

Weather Forecast Office
Lubbock, TX
Issued May 08, 2022 4:02 AM CDT

NWSLubbock

weather.gov/lub

Another hot day is on tap with the potential for record-breaking heat once again. Lubbock's record high of 102 set in 1989 and Childress' record high of 107 set in 2011 both will be within reach this afternoon. The other main story will be increasing southwest winds which may result in periods of blowing dust. Relative humidity below 5 percent will also result in critical to extremely critical fire weather conditions across the area today.

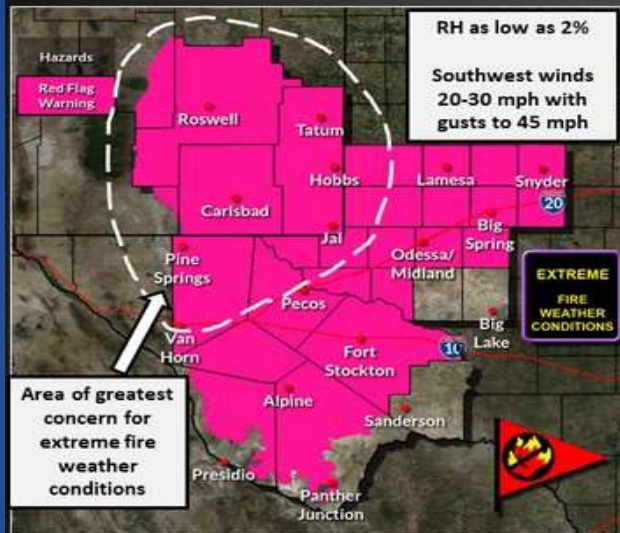

Hazardous Weather

Fire Weather Hazards

Weather Forecast Office
Midland/Odessa, TX
Issued May 8, 2022 3:14 AM CT

Sunday

Monday

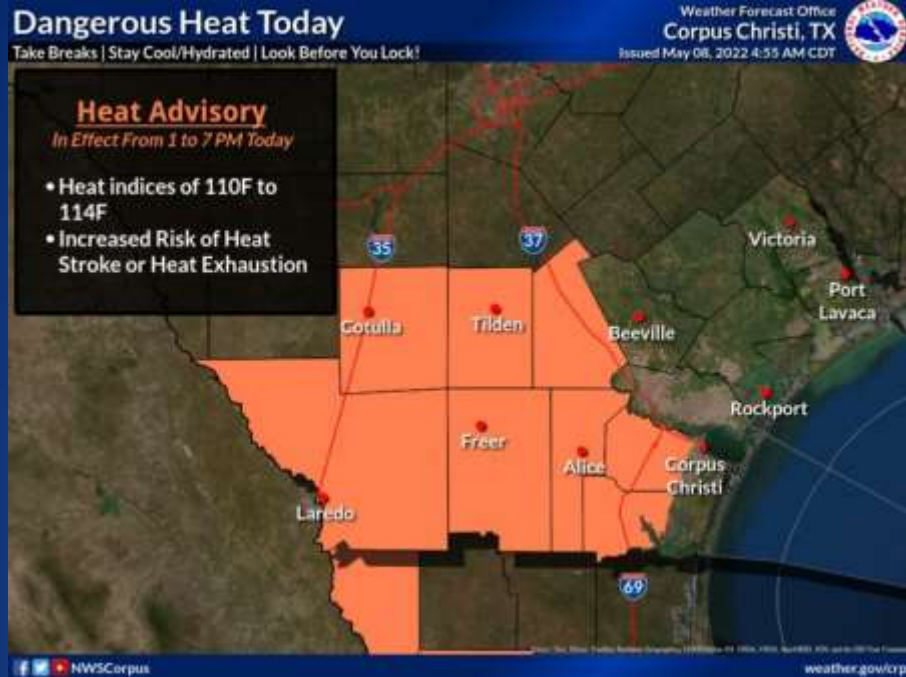

f t v NWSMidland

weather.gov/maf

Critical to extreme fire weather conditions will be in place both today and tomorrow afternoon. Please refrain from outdoor activities that may create a flame or spark and properly dispose of cigarettes!

Hazardous Weather

Dangerous heat today with heat index values 110 to 115 this afternoon over inland Coastal Bend into the Brush Country and Rio Grande Plains. Take breaks, stay cool & hydrated, and look before you lock! Increased risk of heat stroke and exhaustion.

High afternoon temperatures combined with elevated dew points will make conditions feel even hotter. A heat advisory is in effect from 1 PM CDT until 7 PM CDT. Remember to limit your outdoor activities, drink plenty of water, and never leave children or pets alone in vehicles!
